**JUBILEE 2025 - PILGRIMS OF HOPE - Jubilee themes: CARE OF CREATION**  
**Pope Leo XIV's call for action and harmony among all creation comes in a long line of papal teachings on the environment.** As early as 1972, Pope Paul VI began speaking about the environmental emergency, and both Pope Benedict XVI and Pope Francis devoted considerable teaching to it. For decades, bishops, women and men religious, and theologians have spoken about the urgent need to interpret our faith in light of the signs of the planetary crisis.  
Lorna Gold, executive director of the Laudato Si' Movement, said, "This is a kairos moment – a time of unity and bold action. Pope Leo XIV is the pope needed at this moment – a man who stands for unity, peace, and action for our planet. A man who will no doubt continue in the tradition of Leo XIII who broke the mould and ushered in a new era with the first Catholic Social Teaching, Rerum Novarum.  
"As a man who has served communities in Peru and called for action on climate justice, we look forward to his leadership at this critical time. Together with the grassroots leaders, bishops, women and men religious, and priests that we collaborate with daily, we'll continue walking the path towards climate and ecological justice."
